Twice as Good!

Feature include:

- Same proven fan system, controls, and many internal components as the Avida setter series.
- Save up to 13 sq. meters (140 sq. feet) compared to two individual one zone hatcher.
- Ability to work in the same room environment with other hatcher even with different air pressure requirements.
- A backup controls processor to the CPU for key functions to guarantee continual functioning.
- Controls that give the user the ability to obtain optimal chick comfort thru stage programs.
- When connected to Galaxy or Oracle software, user can integrate with Chick Master Heat Recovery and Energy Management Systems for greater energy savings.

And many more....
